---

### ISSUE STATEMENT

This is an action item to appoint one member to the Metropolitan Wastewater Management Commission to fill a position with a term which will expire January 31, 2015.

### BACKGROUND

The purpose of the Metropolitan Wastewater Management Commission is to act as the governing and policy-making body for regional wastewater management activities. Seven persons compose the commission, three of which represent the city of Eugene: one elected official and two citizen at-large members. The Mayor appoints the elected official and nominates the citizen representatives for three-year terms. The City Council then votes on the Mayor's citizen nominations.

The recruitment for the Metropolitan Wastewater Management Commission was initiated in early December, and concluded on December 30, 2011. The only applicant was Hilary Loud who is reapplying for her position.

The Mayor nominated Ms. Loud for reappointment.

### RELATED CITY POLICIES

The Metropolitan Wastewater Management Commission serves as an advisory body to the City Council working under an intergovernmental agreement.

### COUNCIL OPTIONS

The City Council has the following options:

1. Appoint the applicant who has been nominated;
2. Appoint someone else;
3. Seek additional candidates for this position.

### CITY MANAGER'S RECOMMENDATION

The City Manager has no recommendation on this item; the appointment is made by the council.

## **SUGGESTED MOTIONS**

I move to appoint Hilary Loud to Position 3 on the Metropolitan Wastewater Management Commission for a term beginning on February 1, 2012, and ending on January 31, 2015.

## **ATTACHMENTS**

- A. Application of Hilary Loud
- B. List of Current MWMC Membership

Personal Interest

One of my personal interest is green gardening ie not using pesticides and being frugal with water consumption and runoff. Where I live we have a private canal I was instrumental in finding a way to contain algae growth without pesticides.

No Supplemental Answers

Contribution

I would like to remain on this board to be a part of the goal of improving water quality for all of Eugene.Efficient use of our natural resources is now more that ever of paramount importance.
