

EUGENE CITY COUNCIL AGENDA ITEM SUMMARY

Work Session: Fleet Services Overview of Clean Fuels Usage in City Fleet and Other Program Efforts to Reduce Carbon Emissions and Fuel Consumption in City Vehicle Fleet

Meeting Date: February 20, 2013
Department: Public Works
www.eugene-or.gov

Agenda Item Number: B
Staff Contact: Tony Jobanek
Contact Telephone Number: 541-682-4808

ISSUE STATEMENT

The City's Fleet Manager will present a short overview of the Fleet Service's section efforts to reduce City fleet fuel usage and describe the technologies and fuel types being utilized to assist the organization in reducing its vehicle fuel consumption and fleet carbon foot print.

BACKGROUND

The use of alternative fuels is just a part of the organization's program to address carbon foot print reduction. In addition, ongoing efforts to implement technological advancements and operational efficiencies for the City-owned fleet of vehicles and equipment has also played a significant role in this effort.

RELATED CITY POLICIES

Fleet and Radio Communication Services Policy and Procedures manual-Vehicle replacement policy 4.6.4 Sustainability: The purchase of alternative fuel vehicles and other environmentally sensitive technologies which are economically feasible at the time of a vehicle's replacement will be included in the decision process when replacing vehicles and equipment.
