Section 3. The “Policies” and “Projects” sections on page 29 in the “Downtown Riverfront” section of Eugene Downtown Plan are amended as follows:

Policies

1. Incorporate the Willamette River as an integral element to downtown planning and development.

~~[2.—Collaborate with EWEB to encourage relocation of their utility facilities.]~~

~~[3.—A master plan for the EWEB riverfront property must be approved by the City before an redevelopment, land use application rezoning, Metro Plan or refinement plan diagram amendments are approved for uses not associated with EWEB functions. The master plan shall be evaluated based on the master plan’s consistency with principles A through D below:~~

- ~~A. Create a “people place” that is active, vibrant, accessible and multi-use.~~
 - ~~B. Provide appropriate setbacks, deeper where environmental or habitat issues are more critical, shallower in other areas.~~
 - ~~C. Incorporate appropriate building and site design techniques that address environmental concerns.~~
 - ~~D. Incorporate an educational aspect, so that the riverfront improvements teach us about our river, our history, and our city.~~
- ~~The master plan shall be considered using the City’s Type II application procedures, unless the applicant elects to have the master plan reviewed concurrently with a Type III, Type IV or Type V application.]~~

[4.]2. Facilitate dense development in the courthouse area and other sites between the core of downtown and the river.

Projects

Examples of possible projects that address the implementation strategies:

~~[● Partner with EWEB to develop a master plan for the EWEB site.]~~

- Assess and provide mitigation for stormwater issues related to the potential development of riverfront properties.
- Introduce pedestrian-related improvements along all paths leading to the river.
- Develop an adaptive use concept for EWEB’s Steam Plant.
- Daylight the Millrace to connect downtown to the river and capitalize on this historic waterway.

Section 4. The Riverfront Park Study is amended by deleting subsection E in the “Policies” section on pages 11 and 12 and re-lettering subsection F to subsection E.

~~[E. EWEB~~

~~The following policies are intended to provide direction for future action pertaining to the EWEB main facility and steam plant.~~

~~**1. Property under EWEB ownership within the Riverfront Park Study Area shall remain designated for the utility’s main headquarters.**~~

~~In 1983, EWEB embarked on a project to develop a Headquarters Master Plan that investigates alternative for consolidating its 428 employees and major operations at the existing riverfront site. This policy recognizes that the draft EWEB Master Plan, once adopted, will be the bases for future decisions relating to the develop of EWEB’s land and operations facilities. It also recognizes that EWEB is an important employer and service provider in the Riverfront Study Area and is especially important because of its proximity to downtown Eugene. The recently adopted Downtown Plan similarly recognized EWEB’s continued presence in the study area and~~

anticipates continuing improvements in river access in concert with the implementation of the EWEB Master Plan.]

~~[2. ——— The City of Eugene shall work with EWEB and the University of Oregon to investigate actions which could be taken to implement improvements in the efficiency of the steam plants operated by both organizations in the Riverfront Study area.~~

~~This policy commits the City of Eugene to work with both the University of Oregon and EWEB to attempt to identify ways to increase efficiencies in steam plant operations of both organizations. Increasing steam facility efficiencies has potential impact on future users, e.g., those in the Riverfront Park Area as well as existing steam customers, and consequently is an important community-wide economic diversification issue.]~~

~~[3. ——— Property owned by the University of Oregon, and currently leased by EWEB for its pole yard, shall be included in the property available for redevelopment for new facilities in the Riverfront Park.~~

~~This policy recognizes that the current pole storage is an interim use, and that the University may implement redevelopment plans in its role as property owner.]~~
