

Envision Eugene Single Family Code Amendments

SINGLE FAMILY CODE AMENDMENTS

- Envision Eugene Goals
- Public Engagement Process
- Summary of Amendments

Photo Credit: Eugene Backyard Farmer

R-1 Low Density Residential Zone

- Improve compatibility standards citywide for
 - secondary dwelling units (currently allowed)
 - accessory buildings (currently allowed)
 - existing alley access lots
- Allow for new alley access lots
- Add University Area Interim Protection Measures

R-1 Low Density Residential Zoning

ENVISION EUGENE GOALS

- Implement the goals of Infill Compatibility Standards project
- Address housing affordability
- Meet a portion of the city's 20 year need for single family housing

Eugene's existing neighborhoods provide the foundation for the community's overall livability. As new development brings change throughout Eugene's neighborhoods, we will undertake the following strategies to help ensure a high level of livability, deter negative impacts, and make positive changes:

1. Minimum and maximum allowable densities in the land use code will not be changed in order to meet our residential land need for Envision Eugene. Future actions (such as land use code changes and plan amendments) that impact allowable density in neighborhoods will only be undertaken through a public process (such as area planning or neighborhood planning) that integrates the compatibility goals of the Infill Compatibility Standards (ICS)

Infill Compatibility Standards

Infill Compatibility Standards are a set of recommendations from a community task force to help new development fit and function better in Eugene's existing neighborhoods. Some recommendations have been implemented while others are pending further action. For more information on specific recommendations, see www.eugene-or.gov/infill.

Infill Compatibility Standards and promoting compatibility and arts.

Support low-density flag lots, lot coverage, and alley access lots as part of the ongoing Code Revision issues identified by the Visioning Commission (see the Visioning Commission Pillar).

That uses incentives for development on by residents, see www.eugene-or.gov/infill.

Neighborhood planning

Our livable neighborhoods is vital great place to live, work, and in the future.

Affordable Housing often pertains to not-for-profit housing developments that offer lower cost housing through government subsidies. Housing Affordability refers to a broader concept of subsidized and market-rate housing that is affordable to the various income levels that make up a community's population. Over the past thirty years, housing costs in Eugene (both renting and purchasing) have far outpaced increases in wages. The result is that in 2010, 44% of Eugene households were considered housing cost burdened. Housing cost burdened is a federal guideline that means that 30 percent or more of a household's income is spent on housing costs.

A mixture of housing types at various levels of affordability will help meet our community's diverse and changing needs. To meet the housing affordability needs of all Eugene residents today and in the future, we will undertake the following strategies:

1. Plan for a higher proportion of new housing stock to be multi-family than the 39% of multi-family that currently exists. Increasing the proportion of multi-family housing is intended to expand the variety of housing types and the prices available, and to address shifting demographic trends towards an aging population and smaller household size.

Approximately 15,000 new homes are expected to be constructed in the next 20 years. A mix of 55% single-family and 45% multi-family is being planned for the new homes. When combined with Eugene's existing inventory of housing, this represents an overall mix of 60% single-family and 40% multi-family homes.

Housing Affordability

A typical national standard used to determine housing affordability is that a household should pay no more than 30 percent of their income on housing. In 2010, 44 percent of Eugene households paid more than 30 percent (58 percent of renters, 31 percent of homeowners).

Multi-Family Housing

Multi-family housing is typically attached housing including building types like duplexes, triplexes, small and large apartment complexes, and condominiums.

Duplex

Small scale apartments

PUBLIC ENGAGEMENT PROCESS

Highlights

2007-2009	Infill Compatibility Standards (ICS) Task Team
2010	R-1 Infill/Flag Lot Implementation Team (RIFLIT)
2010-2013	On-going Envision Eugene public engagement
2011	Draft Envision Eugene Proposal published
2012	Envision Eugene Recommendation published City Council initiated code amendments
2012-2013	Single Family Advisory Group

Highlights

November 2012- Present

- Planning Commission work sessions
- Project highlighted in Envision Eugene Newsletter
- Emails to all neighborhood leaders and other interested parties
- Meetings with members/board members of Friendly, South University, Amazon, Fairmount and Jefferson-Westside neighborhoods
- Public open house
- Public hearing notice
- Notice mailed University area property owners
- Planning Commission public hearing
- Project website

PROPOSED AMENDMENTS

Secondary Dwelling Units

Rainbow Valley Design and Construction

Rainbow Valley Design and Construction

PROPOSED AMENDMENTS

Secondary Dwelling Units

- Strengthen owner/occupancy provisions
- Limit building height to one story
- Add sloped setbacks
- Limit number of bedrooms to 2

EXISTING BUILDING HEIGHTS

PROPOSED BUILDING HEIGHTS

PROPOSED AMENDMENTS

Accessory Buildings

Accessory Buildings

- Limit building height/adding sloped setbacks
- Limit building size on smaller lots
- Increase setbacks on larger lots
- Clarify that building cannot be used as a dwelling
 - Limit number of plumbing fixtures

PROPOSED AMENDMENTS

Alley Access Lots

Alley Access Lots

Alley Access Lots/Houses

- Limit home size
- Limit building height /requiring sloped setbacks
- Limit balconies, dormers, upper story windows
- Limit number of bedrooms to 3
- Limit total vehicle use area (driveways and on-site parking)
- Limiting size and height of accessory buildings

University Area Interim Protection Measures

University Area Interim Protection Measures

Prohibits

- new secondary dwelling units, rowhouses and duplexes
- new rezonings to R-1.5 Rowhouse zone
- new flag lots
- new alley access lots (add compatibility standards to existing lots)

Limits

- number of bedrooms in single-family homes (new/remodels)
- size/number of accessory buildings
- location/extent of parking allowed in front yards
- property line adjustments

Planning Commission Recommendations

Secondary Dwellings/Accessory Buildings/Alley Access Lots

- Modest Changes/Clarifications

University Area Interim Protection Measures

- Sunset Date
- Bedroom Count
- Secondary Dwellings

Next Steps

November 18 Public Hearing

November 27 Work Session

December 9 Action
