

**ADMINISTRATIVE ORDER NO. 53-24-07**  
of the  
City Manager of the City of Eugene

**REGARDING THE OPPORTUNITY TO COMMENT ON A PROPOSAL  
TO AMEND THE CONSTRUCTION PERMIT FEE SCHEDULE.**

**The City Manager of the City of Eugene finds as follows:**

**A.** Chapter 8 and Section 2.020 of the Eugene Code, 1971 (EC), authorize the City Manager to determine and set fees and charges to be imposed by the City for services, goods, use of municipal property, and licenses and permits. Pursuant to that authority, on July 31, 2023, I issued Administrative Order No. 53-23-02-F amending the Construction Permit Fee Schedule (“the Fee Schedule”).

**B.** In determining whether to adjust construction permit fees, in accordance with EC 2.020(2), I have considered the following factors: applicable policies, enactments and directives of the City Council; the amount charged for these services by the City in the past; the full costs of providing the services supported by the fees; the amounts charged by other comparable providers; and the revenue needs of the City as determined by the adopted City budget. (See Exhibit C).

**C.** Based on my consideration of the factors listed above, I propose to amend the Construction Permit Fee Schedule as set forth in the Notice attached as Exhibit A to this Order, effective July 1, 2024.

**On the basis of these findings, I order that:**

**1.** A copy of this Order with its exhibits shall be provided to the Mayor and City Councilors, and a Notice substantially conforming to the Notice attached as Exhibit A shall be made available to any persons who have requested such notice and posted at two locations at City Hall.

**2.** A Notice substantially conforming to the Notice attached as Exhibit B which contains those fees proposed to be \$250 or more shall be published in the Register Guard Newspaper.

**Dated this 10th day of June, 2024.**

**NOTICE OF OPPORTUNITY TO COMMENT ON PROPOSED AMENDMENT OF THE CONSTRUCTION PERMIT FEE SCHEDULE.**

Pursuant to the provisions of Chapter 8 and Section 2.020 of the Eugene Code, 1971, and as a result of an investigation of the revenue needs of the City in providing the permitting services, the City Manager is proposing to amend the Construction Permit Fee Schedule effective July 1, 2024.

Fees proposed to be \$250 or greater are set out below. A full schedule of the proposed amendments can be reviewed at the City Hall bulletin board posting locations, 500 East 4<sup>th</sup> Avenue, Eugene and on the City’s website at [www.eugene-or.gov/520/Administrative-Order](http://www.eugene-or.gov/520/Administrative-Order).

The table below sets out the current fees and the fees proposed to be charged effective July 1, 2024. Proposed changes to the fee descriptions are shown in ***bold italic*** type for additions, and ~~strikethrough~~ for deletions.

# Proposed FY25 Construction Permits Fee EC 2.020(2) Compliance

## Findings

Eugene Code 2.020(2) requires that unless the City Manager determines in writing that consideration of one or more of the following factors is irrelevant or inapplicable, in determining the amount of any such fee the city manager shall consider:

- a) Applicable policies, enactments and directives of the council

Response: The Construction Permits Fund is a special revenue fund that is required by Council to be wholly fee supported.

- b) The amount charged by the city in the past

Response: The fees proposed are in keeping with historic fees and represent an inflationary increase of approximately 3% over the 12 months since the previous fee increase to all applicable building related fees set by the City within the proposed fee schedule. This amount is slightly higher than that of increases in recent years but is in keeping with the inflationary costs of personnel (3.1% in the last twelve months) and supports reducing the loss of reserves occurring currently and forecast to continue for the near-term.

- c) The full costs of providing the service supported by the fee

Response: As the Construction Permits Fund is wholly fee supported it is responsible for charging fees to cover all operating costs, maintaining an adequate fund reserve, and covering charges for allocated City overhead expenses. The FY24 operational year is forecast to see an operating loss of approximately \$900,000 based on slower construction activity, reducing reserves which remain below target levels.

- d) The amounts charged by other comparable providers

Response: Fees charged by the City of Eugene for implementation of the State Building Code are in keeping with code driven calculation methods. This proposed increase is lower than recent increases from the City of Portland (8%), the City of Springfield (5%) and the City of Willsonville (3.7%). City of Eugene fees normally compare to be in the middle to upper middle range when compared to other cities in Oregon. Throughout the industry there is significant variance in charges for specific fees so a general charge for staff time is used for this comparison. A brief staff hour comparison table follows:

Portland	\$ 206.00
Bend	\$ 149.30
<b>Eugene</b>	<b>\$ 114.80</b>
Salem	\$ 67.25
Medford	\$ 60.00

e) The revenue needs of the city as determined by the adopted city budget

Response: Budgeted personnel costs are increasing 3.1% between FY24 and FY25 and the fund is forecasting and budgeted a significant operating loss for the FY24 / FY25 biennium due in large part to stagnating construction activity related to capital and debt market impacts of increased interest rates.

## Conclusion

Based on the increase in operating personnel costs, the assessed reasonableness of the fees when compared to the total cost of providing the service, the legally mandated requirement to provide the service, the prevailing reserve amounts available by service type, and the demonstrated budgetary need to increase operating revenue for the fund associated with its increased expenses, the proposed fee increase is in keeping with historic practice, necessary to maintain appropriate levels of fund solvency, and required to support appropriate reserve levels for ongoing service provision.
