**Planning Director's Findings and
Recommendation: Annexation Request for
2488 Devon Reed
(City File: A 25-10)**

Application Submitted: August 8, 2025
Applicant: Jennie Reed
Property Included in Annexation Request: Tax Lot 05700 of Assessor's Map 17-03-08-44
Zoning: AG Agricultural with /UL Urbanizable Land Overlay
Location: 2488 Devon Avenue
Lead City Staff: Nicholas Gioello, Associate Planner, City of Eugene Planning Division, 541-682-5453

EVALUATION:

Based on the information provided by the applicant, the City has determined that this request complies with Eugene Code (EC) Section 9.7805 Annexation - Applicability. As such, it is subject to review and approval in accordance with the requirements, application criteria and procedures of EC 9.7800 through 9.7835. The applicable approval criteria are presented below in bold typeface with findings and conclusions following each.

EC 9.7825(1) The land proposed to be annexed is within the city's urban growth boundary and is: (a) Contiguous to the city limits; or (b) Separated from the city only by a public right of way or a stream, bay, lake or other body of water.	
Complies <input checked="" type="checkbox"/> YES <input type="checkbox"/> NO	Findings: The subject property is within the Urban Growth Boundary and is contiguous to City limits on its western boundary abutting Devon Avenue, consistent with subsection (a).
EC 9.7825(2) The proposed annexation is consistent with applicable policies in the Metro Plan and in any applicable refinement plans.	
Complies <input checked="" type="checkbox"/> YES <input type="checkbox"/> NO	Findings: Several policies from the Metro Plan provide support for this annexation by encouraging compact urban growth to achieve efficient use of land and urban service provisions within the UGB, including the following policies from the Growth Management section (in <i>italic text</i>): <i>Policy 8. Land within the UGB may be converted from urbanizable to urban only through annexation to a city when it is found that:</i> <i>a. A minimum level of key urban facilities and services can be provided to the area in an orderly and efficient manner.</i> <i>b. There will be a logical area and time within which to deliver urban services and facilities. Conversion of urbanizable land to urban shall also be consistent with the Metro Plan. (page II-C-4)</i> <i>Policy 10. Annexation to a city through normal processes shall continue to be the highest priority. (page II-C-5).</i>

	<p><i>Policy 15. Ultimately, land within the UGB shall be annexed to a city and provided with the required minimum level of urban facilities and services. While the time frame for annexation may vary, annexation should occur as land transitions from urbanizable to urban. (page II-C-5)</i></p> <p>The following policy from the Residential Element of the Metro Plan is also applicable:</p> <p><i>Policy A.2 Residentially designated land within the UGB should be zoned consistent with the Metro Plan, and applicable plans and policies; however, existing agricultural zoning may be continued within the area between the city limits and UGB until rezoned for urban uses.</i></p> <p>The Metro Plan designates the annexation area as appropriate for low-density residential use. The property is zoned AG Agricultural with a /UL Urbanizable Land overlay. The current zoning of AG is intended to allow agricultural uses within the UGB until land is converted to urban use. Agricultural uses are considered interim uses until public facilities and services can be provided. In order for this property to further develop as residential property in the future, a zone change to R-1 Low Density Residential will be necessary. The /UL overlay will be automatically removed from the zoning following annexation approval.</p> <p>The Willakenzie Area Plan (WAP) is the adopted refinement plan for the subject property. The subject property is located within the WAP's Unincorporated Subarea. The WAP designates the area for Low-Density Residential use. With regard to applicable policies of the WAP, none of the listed policies for this subarea appear to be directly applicable to the subject property.</p> <p>The proposed annexation does not conflict with any of the Land Use Policies in the WAP. The "Public Facilities and Services Element" policies of the WAP are directed at local government; however, the premise of these policies (regarding the provision of urban services) is the assumption that the properties within the UGB will be annexed.</p> <p>As previously discussed in this subsection, and further detailed under subsection (3) below, the proposed annexation is consistent with Metro Plan growth management policies and can be served by the minimum level of key urban services. The annexation procedures beginning at EC 9.7800 are consistent with State law and therefore, as found throughout this report, the annexation is consistent with State law.</p> <p>Based on the findings above, the proposal is consistent with the applicable policies of the <u>Metro Plan</u> and <u>Willakenzie Area Plan</u> refinement plan.</p>						
EC 9.7825(3)	The proposed annexation will result in a boundary in which the minimum level of key urban facilities and services, as defined in the Metro Plan, can be provided in an orderly, efficient, and timely manner.

Complies							
<input checked="" type="checkbox"/> YES	<input type="checkbox"/>						
	NO						

Wastewater

Public wastewater is available via a 24-inch line located within Devon Avenue right-of-way, which is adjacent to the site. The subject property is currently served by a septic system.

There is a 12-inch public stormwater line in Devon Avenue to the west of subject property.

Soil maps indicate Type C soils on site. Any future development on the site will be subject to the City of Eugene stormwater standards during the building permit process.

Transportation

The subject property fronts Devon Avenue, which is a local street maintained by the City of Eugene. Compliance with applicable street standards will be evaluated at time of future development.

Solid Waste

Eugene Water and Electric Board (EWEB) Water staff confirm no objections to the annexation of the site as water and electric services for the subject property are in accordance with EWEB policies and procedures.

Planning and Development Services

Planning and building permit services are provided for all properties located within the Urban Growth Boundary by the City of Eugene. The Eugene Code, Chapter 9, will provide the required land use controls for future development of the subject property upon annexation.

Communications

A variety of telecommunications providers offer communications services throughout the Eugene/Springfield area.

		<p><u>Public Schools</u></p> <p>The subject property is within Eugene School District 4J. As access to schools is evaluated on a district-wide basis, the property's location within the school district is sufficient evidence to demonstrate the minimum level of this key urban service is met.</p>
