## 2. WORK SESSION: Unlawful Transfer on Vehicular Portion of Right-of-Way (Cont'd)

Assistant City Manager, Kristie Hammitt, introduced Police Chief, Chris Skinner, who introduced the topic.

### Councilor Discussion:

- Councilor Groves – stated the ordinance is about safety and not about targeting unhoused individuals; noted personal experience as a fire captain and the difficulty of collecting data on such incidents; stated the ordinance would apply to all individuals soliciting in the roadway; noted drivers can leave the travel lane to make a donation.
- Councilor Kashinsky – stated data does not support this ordinance as a safety measure; stated a preference for focusing resources on proven causes of traffic fatalities like speeding, intoxicated driving, and visibility.
- Councilor Clark – stated the ordinance is about setting behavioral expectations for drivers; stated support for moving the ordinance to public hearing to gather community input.
- Councilor Keating – emphasized his preference for education and signage over enforcement of penalties; stated support for a public hearing to gather community input.
- Councilor Zelenka – stated the data does not support this ordinance as a safety measure; stated the ordinance is unnecessary and targets unhoused individuals.
- Councilor Evans – clarified the vote was to move to public hearing, not to adopt the ordinance; noted it may be better to send donations to social service agencies rather than individuals; emphasized the need for public input.
- Councilor Yeh – noted that the community lacks adequate services for unhoused individuals and emphasized that personal donations, such as food or supplies, can be meaningful while people wait for help; spoke against the ordinance, citing lack of new information and concerns about targeting homelessness.
- Councilor Leech – emphasized the need to focus limited resources on the most impactful public safety issues; expressed concern about spending money on signage or enforcement for this ordinance without supporting data; stated similar proposals have failed before and that no new information has been presented; noted opposition to the ordinance but would consider revisiting it if future data showed this issue to be a top priority.
- Councilor Keating – noted the vote was not to adopt or reject the ordinance but to move it to a public hearing; stated the hearing would allow for more information gathering and give the public a chance to share their views.
- Councilor Kashinsky – noted Council has limited time and resources, and holding a public hearing on this ordinance would delay other priorities; questioned whether the hearing would provide new insights and emphasized focusing on issues with the greatest community impact.
- Councilor Groves – noted many public hearings are brief and could accommodate this topic; stated support for moving the ordinance to a public hearing; noted data on the issue is not currently collected in a searchable format.

- Councilor Leech – asked about the possibility of changing the data collection process to include information about crashes caused by pedestrians in the travel lane.
- Councilor Yeh – stated she is open to a broader conversation about street safety and supports data-driven solutions; noted the proposed ordinance may be more about discomfort with visible homelessness; stated the need for meaningful, systemic change.

**MOTION:** Councilor Evans, seconded by Councilor Leech, moved to direct the City Manager to schedule a public hearing on the draft unlawful transfer on vehicular portions of the right-of-way ordinance as set forth in Attachment A to this AIS.
