<b>Property Included in Annexation Request:</b> Tax Lot 07809 of Assessor’s Map 17-04-14-41

<b>Location:</b> 1773 Parnell Drive
<b>Lead City Staff:</b> Nicholas Gioello, Associate Planner, City of Eugene Planning Division, 541-682-5453

**EVALUATION:**

Based on the information provided by the applicant, the City has determined that this request complies with Eugene Code (EC) Section 9.7805 Annexation - Applicability. As such, it is subject to review and approval in accordance with the requirements, application criteria and procedures of EC 9.7800 through 9.7835. The applicable approval criteria are presented below in bold typeface with findings and conclusions following each.

<b>EC 9.7825(1) The land proposed to be annexed is within the city’s urban growth boundary and is:</b>	
<p align="center"><b>(a) Contiguous to the city limits; or</b>  <b>(b) Separated from the city only by a public right of way or a stream, bay, lake or other body of water.</b></p>	
<b>Complies</b>	<b>Findings:</b> The subject property is within the Urban Growth Boundary and is separated from the City limits only by the public right of way of Hamilton Avenue along its north boundary, consistent with subsection (b).
<input checked="" type="checkbox"/> YES	<input type="checkbox"/> NO
<b>EC 9.7825(2) The proposed annexation is consistent with applicable policies in the Metro Plan and in any applicable refinement plans.</b>	
<b>Complies</b>	<b>Findings:</b> Several policies from the Metro Plan provide support for this annexation by encouraging compact urban growth to achieve efficient use of land and urban service provisions within the UGB, including the following policies from the Growth Management section (in <i>italic text</i> ):
<input checked="" type="checkbox"/> YES	<input type="checkbox"/> NO
	<p><i>Policy 8. Land within the UGB may be converted from urbanizable to urban only through annexation to a city when it is found that:</i></p> <p><i>a. A minimum level of key urban facilities and services can be provided to the area in an orderly and efficient manner.</i></p> <p><i>b. There will be a logical area and time within which to deliver urban services and facilities. Conversion of urbanizable land to urban shall also be consistent with the Metro Plan. (page II-C-4)</i></p> <p><i>Policy 10. Annexation to a city through normal processes shall continue to be the highest priority. (page II-C-5).</i></p>

*Policy 15. Ultimately, land within the UGB shall be annexed to a city and provided with the required minimum level of urban facilities and services. While the time frame for annexation may vary, annexation should occur as land transitions from urbanizable to urban. (page II-C-5)*

The following policy from the Residential Element of the Metro Plan is also applicable:

*Policy A.2 Residentially designated land within the UGB should be zoned consistent with the Metro Plan, and applicable plans and policies; however, existing agricultural zoning may be continued within the area between the city limits and UGB until rezoned for urban uses.*

The Metro Plan designates the annexation area as appropriate for low-density residential use. The River Road - Santa Clara Urban Facilities Plan (RR/SC UFP) is an adopted refinement plan for the subject property, which also designates the area for low density residential use, consistent with the subject property's existing R-1 Low-Density Residential zoning. The /UL overlay will be automatically removed from the property upon approval of the annexation.

Regarding applicable policies of the RR/SC UFP, the subject property is not located within a subarea. None of the general "Residential Land Use Policies" at Section 2.2 appear to be directly applicable to the subject request. The "Public Facilities and Services Element" policies of the RR/SC UFP are directed at local government; however, the premise of these policies (regarding the provision of urban services) is the assumption that property within the UGB will be annexed.

The River Road - Santa Clara Neighborhood Plan is the other more recently adopted refinement plan applicable to the subject property. While none of the goals or policies appear to serve as mandatory approval criteria for this annexation, the following policy is relevant to the annexation request:

*Policy 17.4 Annexation: Annexation of the River Road and Santa Clara areas will occur only through strict application of state laws and local policies (e.g., ability to extend key urban facilities and services in a timely manner). In each case, Eugene will make every reasonable attempt to provide for annexation only on a voluntary basis and according to prior individual property annexation agreements.*

As this annexation request is both served by key urban facilities (see below) and is a voluntary annexation, this policy is generally supportive of the request. Further, the Neighborhood Plan Goals focus on promoting additional housing infill, which this annexation will facilitate because of the expanded residential uses allowed on this property following annexation.

As previously discussed in this subsection, and further detailed under subsection (3) below, the proposed annexation is consistent with Metro Plan growth management policies and can be served by the minimum level of key urban services. The annexation procedures beginning at EC

		<p>9.7800 are consistent with State law and therefore, as found throughout this report, the annexation is consistent with State law.</p> <p>Based on the findings above, the proposal is consistent with the applicable policies of the <u>Metro Plan</u> and <u>RR/SC UFP</u> refinement plan, and the <u>River Road – Santa Clara Neighborhood Plan</u> refinement plan.</p>
<p><b>EC 9.7825(3) The proposed annexation will result in a boundary in which the minimum level of key urban facilities and services, as defined in the Metro Plan, can be provided in an orderly, efficient, and timely manner.</b></p>		
<p><b>Complies</b></p> <p><input checked="" type="checkbox"/> <b>YES</b></p> <p><input type="checkbox"/> <b>NO</b></p>		<p><b>Findings:</b> Consistent with this criterion, the proposed annexation will result in a boundary in which the minimum level of key urban facilities and services can be provided in an orderly, efficient, and timely manner as detailed below:</p> <p><u>Wastewater</u> The property is currently connected to the public wastewater system within Hamilton Avenue right-of-way adjacent to the site.</p> <p><u>Stormwater</u> There is no public system adjacent to the subject property. The nearest piped public system is approximately 1,120 feet to the east of subject property in Hamilton Avenue and River Road. Soil maps indicate Type B soils. No construction is proposed as part of this application and the site is already developed with a single-unit structure. Any future development will be subject to the City of Eugene Stormwater standards during the building permit process.</p> <p><u>Transportation</u> The subject property’s western boundary fronts Parnell Drive, a local Lane County street maintained by the City of Eugene. Additionally, the northern property boundary fronts Hamilton Avenue, a Lane County local access road. A facilities permit with Lane County may be required for any future development.</p> <p><u>Solid Waste</u> Collection service is provided by private firms. Regional disposal sites and services are operated by Lane County.</p> <p><u>Water and Electric</u> Eugene Water and Electric Board (EWEB) Water staff confirm no objections to the annexation of the site.</p> <p><u>Public Safety</u> Police protection can be extended to this site upon annexation consistent with service provision through the City. Fire protection and emergency medical services will be provided by Eugene Springfield Fire.</p> <p><u>Parks and Recreation</u> Parks and recreation programs are provided on a City-wide basis. The inclusion of the subject property in the City is sufficient evidence to demonstrate the minimum level of this key urban service is met.</p>

		<p><u>Planning and Development Services</u>          Planning and building permit services are provided for all properties located within the Urban Growth Boundary by the City of Eugene. The Eugene Code, Chapter 9, will provide the required land use controls for future development of the subject property upon annexation.</p> <p><u>Communications</u>          A variety of telecommunications providers offer communications services throughout the Eugene/Springfield area.</p> <p><u>Public Schools</u>          The subject property is within Eugene School District 4J. As access to schools is evaluated on a district-wide basis, the property’s location within the school district is sufficient evidence to demonstrate the minimum level of this key urban service is met.</p>
